Who it is built for

Built for trading businesses where item variety, unit conversion and delivery tracking are daily challenges.

Hardware Dealers

Tools, fasteners, fittings and general hardware.

Electrical Stores

Wires, switches, lighting and electrical items.

Sanitary & Paint Dealers

Brand, shade, size, unit and project-specific stock.

Building Material Suppliers

Quotation, site supply, challan, billing and collection.

Core modules

The system connects item catalogue, purchase, stock, quotation, delivery and customer accounts.

Multi-Unit Inventory

Piece, box, packet, metre and other conversion-aware stock.

Billing & Quotation

GST invoice, quotation, estimate, customer rates and discounts.

Project & Contractor

Site, contractor, project supply and outstanding tracking.

Purchase & Pricing

Supplier purchases, landed cost, brand, category and price control.

Delivery Operations

Challan, vehicle, driver, site delivery and acknowledgement records.

Accounts & Reports

Receivables, payables, stock ageing, margin and sales analysis.

Connected workflow

From quotation to site delivery and final collection.

Project and counter sales can follow different workflows while using the same stock and customer ledger.

Step 1: Quote

Prepare item, rate and quantity-wise proposal.

Step 2: Reserve & Pick

Confirm availability and organize supply.

Step 3: Deliver & Record

Create challan with vehicle and site details.

Step 4: Bill & Collect

Invoice delivered goods and track payment.

Handle complex inventory without making counter billing complex.

The workflow balances catalogue depth, unit conversion and customer-specific commercial terms.

- Multi-unit item stock and conversion
- Customer and contractor-specific pricing
- Quotation to challan to invoice flow
- Project and delivery-site tracking
- Brand/category-wise stock visibility
- Outstanding and collection follow-up

Search and evaluation guide

Hardware shop ERP for multi-unit stock, billing and project supply

Hardware ERP is designed for hardware, electrical, sanitary, paint and building-material dealers handling thousands of items, multiple units, contractor orders and delivery-based sales. It keeps billing connected to actual stock and project supply.

Common solution searches: Hardware shop billing software | Hardware inventory software India | Electrical shop ERP | Building material billing software | Contractor billing software | Hardware POS software

Frequently asked questions

Can the system be customized for our workflow?

Yes. The implementation can include company-specific masters, approvals, print formats, reports and integrations after requirement mapping.

Can it be used on mobile devices?

The web interfaces are designed to be responsive. Device suitability depends on the module, scanning method and printer integration required.

Is data migration available?

Migration can be planned from spreadsheets or an existing system after checking data quality, mapping rules and reconciliation requirements.

How is implementation handled?

We begin with discovery and process mapping, configure the system, validate with sample data, train users and then move to controlled go-live.

Next step

Share your current workflow, users, locations, devices, print requirements and reporting priorities. Alltrim Solutions can then demonstrate the relevant product flow and identify configuration, migration and integration requirements.
